YES Our Mattresses are Australian Made.

Too Hard or Too Soft, A Bedtime Story.

According to the Chiropractors' Association of Australia, many people sleep badly and suffer preventable spinal pain due to their beds being too hard or too soft for their body type.

80% of people suffer back pain at some stage of their lives, and because every body is different, it is important to choose a bed with the right support and comfort for the individual.

One of the main reasons mattresses cause back trouble is that they are not replaced regularly enough. Manufacturers and chiropractors recommend changing a mattress approximately every 10 to 13 years, depending on how it is cared for.

*Terms and conditions apply. Offer not valid in conjunction with any other offer. Discount off the Regular Ticket Price. Discount not available on bases, only available on CAA mattresses. Offer available to Wot's Hot readers until 19th November 2012. See staff for details.
